DA Garrison Undergoes Back Surgery

District Attorney Jim Garrison underwent back surgery this morning at Hotel Dieu.

The operation was to correct an injury sustained by Garrison several months ago, according to James L. Alcock, chief assistant district attorney.

Alcock said that Garrison's injured back failed to respond to intensive treatment over the last two months and the operation was considered to be necessary.

Alcock added that "with favorable convalescence, Mr. Garrison hopes to return to his offiee after the Christmas holidays."
